Tour Insurance

For tours in the UK only

Have you got adequate travel insurance in place for your tour yet (your families may have their own travel insurance)? This is a basic travel insurance for lost/broken/stolen items etc. and additional medical insurance is not required.

For tours abroad only

Have you got adequate travel insurance in place for your tour? Your families may have their own basic travel insurance for lost/broken/stolen items etc., but it is your club's responsibility to provide specific cover for injuries sustained whilst playing abroad. This additional medical insurance must also include medical repatriation.

Please could I have a copy of this insurance for my records, because I won't be able to grant approval to tour without it?

If you have any players/coaches/managers who are serving a WRU Disciplinary sanction at the time of your tour dates, then they must not participate in playing, coaching or management.
